CEU, appetizers, drink, and demos! Join us for a CDC Compliant session at the 2021 TASA Mid-Winter Leadership Conference. The Mission Critical Tech & Privacy Update session will feature info on optimizing your mobile technology services, demos of top-of-the-line equipment, and tips on funding your upgrades through grants. Space is limited and only open to conference attendees. [Register for the session.](#)

HOW PEARL SOLUTIONS GROUP CAN HELP EMS

We know you need mission-critical technology to allow you to focus on your front-line work and tech support that is on-call while you are. Emergency readiness includes access to the data and specialized IT equipment that allow EMTs and paramedics to make life-saving decisions, connectivity to patient information and hospital intake, and protecting the integrity of each call. Pearl Solutions Group are specialists in planning, implementing, and managing mobile workforce systems focused on reliability, integrity, and security.

Our [mobile technology solution for EMS](#) is a full-service experience including design, installation, management, and repair of:

- Rugged Computers
- Mounting Equipment
- Body-Worn & In-Car Cameras
- Telematics with Smart Cameras
- Secure Wi-Fi
- Cybersecurity
